

Dear Students,

As the situation with the spread of Coronavirus-19 evolves, so too has St. Paul's response to the virus. Please read the following information carefully, as it details a significant change in instruction that started last week.

All classes have now moved to an online format. The hours of instruction for any classes that have been postponed will be made up in the future.

Complying with state mandates, the school is now closed.

For Nursing students, we have requested permission from the state to provide alternative learning methods to meet clinical experience requirements. We will be in contact with you regarding these alternatives if and when they are approved by the state. Please know that this adjustment requires approval from the New York State Education Department (NYSED) before implementation.

There may be some hiccups as we transition to an online delivery format. St. Paul's specializes in delivering face-to-face instruction in a smaller classroom environment. If we all work together, we will all get through this together.

Please confirm that the school has your most current contact information. Make sure you can access mycampuslink.com. If you are having difficulty with campuslink, please email Dean Sinclair at TDolcine-Sinclair@stpaulsschoolofnursing.edu.

Thank you,

Paul Ferrise
President
